# Goodbody Global Leaders Fund

Class B EUR Accumulation Shares

A sub-fund of Goodbody Funds ICAV

Managed by Goodbody

## Objectives and investment policy

- The Goodbody Global Leaders Fund ("the Fund") seeks to provide long term capital growth primarily through investment in equity securities with geographical and industry sector diversification.
- The Fund seeks to invest in companies with sustainable competitive advantage that can deliver earnings growth over the medium to long term. The Fund seeks to invest in companies around the world that have a competitive advantage within their category as demonstrated by a high and persistent rate of return on capital and superior earnings growth over time. The Fund further seeks investable opportunities in companies at different stages of development – from already well-established companies (the leaders of today) to companies at an earlier stage of development (the leaders of tomorrow).
- Whilst it is the intention that the Fund be principally invested in equity securities, the Investment Manager retains the flexibility to invest substantially in cash and/or money market instruments such as treasury bills where market conditions so warrant and/or the Investment Manager considers it to be in the best interest of the Fund to do so.
- The Fund may invest up to a maximum of 20% of its Net Asset Value in emerging markets
- All income and gains generated by the Class B EUR Accumulation Class will be reinvested. No dividends will be paid for the Accumulation Classes. All income and gains generated by the Distributing Classes may be distributed.
- On demand, you can buy and sell Shares in the Fund on any Business Day.
- The Class B EUR Accumulation Shares are denominated in Euro ("Euro").
- The Fund is appropriate for investors with a long term investment horizon.
- Please refer to the Prospectus and Supplement for more detailed information.

## Risk and reward profile

Lower risk Typically lower rewards				Higher risk Typically higher rewards		
1	2	3	4	5	6	7

- The risk and reward indicator is calculated on the basis of the share class volatility (the ups and downs in its value) over the prior 5 year period. As the Fund was approved by the Central Bank of Ireland on the 11 December 2015 there is insufficient fund history to provide a useful indication of the Risk and reward profile. The indicator shown above is based on data from the MSCI All Country World Index using available data for the last five years.
- In addition to the above, the risk and reward indicator is based on historical data and may not be a reliable indication for the future.
- The Fund is in category 5 because of the medium to high range and frequency of price movements of the underlying investments the Fund invests in.
- This indicator is not guaranteed and may change over time. The lowest category does not mean that a class is risk free.
- Your initial investment is not guaranteed.
- In addition to the risk captured by the indicator, the overall Fund value may be considerably affected by the following:
- The Fund's investments are subject to market fluctuations, so they can fall as well as rise in value.
- The Fund's investments may be in currencies other than Euro. The impact of this is that as the value of a currency rises or falls it can have a positive or negative impact on the value of the Fund's investments.
- The Fund's assets may be affected by uncertainties such as international political developments, changes in government policies, changes in taxation, restrictions in foreign investment and the movement of money from one country to another, currency fluctuations and other developments in the laws and regulations of countries in which investments may be made.
- Please refer to the Prospectus and Supplement for more detailed information.

## Charges

- The charges you pay are used to cover the operational costs of the Fund, including the costs of marketing and distributing the Fund. These charges reduce the potential growth of your investment.

One off charges taken before or after you invest	
Entry charge	3.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money.	
Charges taken from the fund over a year	
Ongoing charge	0.75 %
Charges taken from the fund under certain specific conditions	
Performance fee	None

- The Ongoing Charge figure has been estimated based on the investment management fees and the operating expenses cap for the share class. The Fund was approved by the Central Bank of Ireland on the 11 December 2015 but has not yet launched.
- The entry and exit charges shown are maximum figures and in some cases you may pay less. You can find this out from the Investment Manager or Distributor.
- For more information about charges, please refer to the Prospectus under 'Fees and Expenses'.

## Past performance

- Past performance is not a reliable guide to future performance.
- There is no past performance as this share class has not yet launched.
