## Undertakings for Collective Investment in Transferable Securities (UCITS)

October 2020

### Month in Review

**Equity markets fell in October. World equities declined 1.8% in Euro terms. Deteriorating Covid 19 trends, easing economic momentum and a looming US election weighted on equity markets. Pacific basin, emerging market and small cap equities were strongest. US and European equities were weakest. Euro area bond markets rose 0.8%. Euro government bonds outperformed corporate and global bonds.**

European Covid cases, which had been deteriorating, were now leading to mobility restrictions, including in France and Germany. Economic forecasts are likely to be cut. Divergence between the manufacturing and services sectors continues. Euro area manufacturing PMI increased to 54.4 and services PMI fell to 46.2. In the US the manufacturing ISM moderated to 55.4 and the non-manufacturing ISM rose to 57.8. 3rd quarter corporate earnings were significantly better than analysts expected. Sales and, even more so, profits beat expectations.

The fund fell 1.0%. Best performers were Orsted, Flutter Entertainment and Caterpillar. Worst performers were S&P Global, Reckitt Benckiser and Visa. Within bond holdings Amundi Prime Euro Govies UCITS ETF and BlueBay Investment Grade Euro Government Bond Fund performed best.
