Goodbody Global Smaller Companies Fund

- Strong outperformance in June
- Altium jumps on takeover approach

Fund performance

The Fund delivered strong outperformance versus its benchmark in June. Stock selection was the main contributor to performance with an additional tailwind from sector allocation (technology in particular). Top performing holdings during the month included US energy technology company Generac (+30%), Australian software company Altium (+30%) and US healthcare company Masimo (+16%). Altium jumped on the back of a takeover approach by larger US peer Autodesk – we have subsequently started to reduce the Fund’s position. We also exited the Fund’s holding in Principle Financial Group as our conviction in the investment case has declined. The Fund finished the first half of the year ahead of its benchmark.

Market commentary

Global equities posted another strong month in June with the MSCI World Index rising by 4.6% in Euro terms, bringing the YTD performance to +16.6%. Covid-19 restrictions in most developed market countries continued to be lifted, aided by high vaccination rates. There was a noticeable rotation in underlying style performance in June with the MSCI World Growth Index rising by 7.8%, while the MSCI World Value Index rose by 1.8%. The Fed surprised the market with a more hawkish than expected meeting during the month. The Dot Plot, which officials use to forecast interest rates, was brought forward to price in two hikes in 2023, with seven members now expecting a hike in 2022. The yield curve flattened on the back of the news with the US 10-year yield dropping below 1.5%. The inflationary narrative continued to dominate headlines during the month. The headline y/y CPI inflation rate rose to 5%, largely driven by base effects, while the core CPI inflation rate rose by 0.7% m/m. Meanwhile, ISM PMI data remained strong driven by elevated demand, supply constraints and high pricing.
